Muhammad Daniyal Mazhar

FULL-STACK DEVELOPER

Layyah, Punjab, Pakistan | +92 301 6593363 | daniyalmazhar3363@gmail.com | Portfolio

PROFESSIONAL SUMMARY

Result-oriented and highly adaptable Full-Stack Developer & Software Engineer with 3-4 years of professional experience building scalable, high-performance web applications. Expert in modern frontend technologies to engineer pixel-perfect, highly responsive user interfaces, combined with deep architectural knowledge of secure server-side development, database optimization, and robust API design. Driven by industry best practices, clean-code methodologies, and a passion for turning complex technical requirements into smooth, business-ready products.

TECHNICAL SKILLS

Frontend	React, Next.js, Angular, Vue, TypeScript, JavaScript, HTML5, CSS3
Backend	Node.js, NestJS, Express.js, REST APIs
Databases & Tools	MongoDB, Git, GitHub, Version Control Systems

WORK EXPERIENCE

Full-Stack Developer

Dec 2022 – Mar 2026

Bits Buffer Company

- Engineered scalable, efficient, and user-focused web applications using the MERN stack and Next.js.
- Developed robust backend server-side architecture and integrated secure REST APIs for seamless data flow.
- Collaborated closely on core layout and business logic, prioritizing clean, maintainable, and well-documented code structures.
- Optimized frontend components to ensure a premium, pixel-perfect, and highly responsive user experience across devices.

EDUCATION

Bachelor of Science in Information Technology (BSIT)

2020 – 2024

Muhammad Ali Institute of Science and Technology, Layyah (Affiliated with UOE Lahore)

ABOUT ME

I am a deeply curious, collaborative, and innovation-driven developer who thrives on solving real-world complex problems through optimized architecture. I view every technical obstacle as an opportunity for professional refactoring and growth, prioritizing pixel perfection and seamless teamwork. Continually exploring modern ecosystems, I am dedicated to deploying robust digital experiences that deliver genuine value to end users.
