Layyah, Pakistan — +92 301 6593363 — daniyalmazhar3363@gmail.com — Portfolio

PROFESSIONAL SUMMARY

Full Stack Developer with 3+ years of experience building scalable, high-performance web applications using React.js, Next.js, Node.js, and NestJS. Experienced in frontend development, RESTful API design, backend architecture, and database management. Proven ability to deliver clean, maintainable, and efficient code across the full development lifecycle. Strong problem-solving skills with a commitment to quality and collaboration.

TECHNICAL SKILLS

Frontend: React.js, Angular, Vue.js, Next.js, JavaScript (ES6+), HTML5, CSS3, Responsive Design
Backend: Node.js, NestJS, RESTful APIs, Server-Side Architecture, API Integration
Databases: MongoDB, MySQL
Tools & DevOps: Git, GitHub, Version Control, Agile Development

PROFESSIONAL EXPERIENCE

Full Stack Developer — **Bits Buffer** — Remote Dec 2022 – Mar 2026

- Developed and maintained scalable, high-performance web applications using React.js, Next.js, Node.js, and NestJS across multiple client projects.
- Designed and integrated RESTful APIs to connect frontend interfaces with backend services, ensuring reliable and efficient data flow.
- Built responsive and user-friendly frontend interfaces using React.js and Vue.js, improving user engagement and cross-device compatibility.
- Managed MongoDB and MySQL databases including schema design, query optimization, and data modeling for production applications.
- Collaborated with cross-functional teams in an agile environment, participating in code reviews, sprint planning, and feature delivery.
- Maintained clean, well-documented, and maintainable codebases following industry best practices and version control workflows using Git.

KEY PROJECTS

Scalable E-Commerce Platform — React.js, Node.js, MongoDB

- Built a full-featured e-commerce platform with dynamic product catalog, cart system, user authentication, and order management using React.js and Node.js backend.

RESTful API Service — NestJS, MongoDB, JWT Authentication

- Designed and developed a secure RESTful API service with JWT authentication, role-based access control, and modular NestJS architecture for a client-facing application.

Admin Dashboard — React.js, Node.js, MySQL

- Developed a real-time admin dashboard with data visualization, user management, and exportable reports using React.js frontend and Node.js/MySQL backend.

EDUCATION

Bachelor of Science in Computer Science Graduated: 2024
Muhammad Ali Institute of Science and Technology, Layyah
Affiliated with University of Education (UOE) Lahore
Relevant Coursework: Data Structures & Algorithms, Database Systems, Software Engineering, Web Development, Object-Oriented Programming

ACHIEVEMENTS & ACTIVITIES

- 3+ years of professional full stack development experience at Bits Buffer delivering production-grade web applications.
- Consistently delivered scalable and user-focused solutions across frontend, backend, and database layers for enterprise clients.
